Schinska's Monthly for October is splendldly illustrated. The second paper on the New York Central Park numbers among its illustrations a fine engraving of John Blackwell, and Benj. Kubs. WARD'S STATUS OF BRAKESPEARS. A VETY TRIBTERN DEATHS AT MEMPHIS - DES interesting illustrated paper also is that on the California Geysers. Other contents of this number, poetical and prose, are up to its accustomed excellence.

THE Border Watchman complains that the Court of Appeals has not removed its Clerk, who is a Republican, "when there are not less than FIFTY applicants for the place who have always been Democrats faithful to the party." This is a very melanchaly state of things; but we refer to it chiefly us evidence of the boast the Democratic orators and journals used to ledulge that Democrats wern animate not by a dealer for office, but by a lofty and unselfish patriotism. Fifty applicants for one little office! Who ever heard of such a thing under Republican administration in this State?

THE Charleston Courier has been sucfor libel by Gen. J. B. IMODEN, damages claimed \$25,000. The libei consisted in the publication of libellous statements is the Courier concerning a company lately organized for the purchase and sale of coal and timber land, building rallroads and navigating rivers, &c., on Gauley and head of Kanawha river. The members of the company were denounced as swindiers, and the public was cautioned not to have anything to do with the Gauley-Kanawha Coal Company. The editor of the Courier has been wanting somebody to "sue" him ever since the Governor aved him from office. We hope he will be satisfied now and "subside."

High Compliment to the Centripetal (From the Cumberland Times of Saturday)

The Contripetal Power Machine ex-hibited at the Fair, while not in competi-tion with any other particular machine, led off in the line of mechanicism. The principle is so simple and so applicable to all kinds of machinery, that the judges not only awarded it a premium of twenty dollars and a diploma, but strongly recommended its use in connection with adapted—and we can only say there are very few to which it is not.
